

SMALL SCALE BIOCHAR PRODUCTION

&

WUI DEFENSIBLE SPACE MANAGEMENT

ABOUT ABT

Mission Statement

ABT mission is to provide the organic Gardening, Farming and Forest WUI communities with site specific efficient biomass reduction equipment and specialized human resources for producing biochar & soils improvement products.

ABT can produce and market small quantities of biochar with blended soil products for specialty markets.

www.appliedbiomass.us

ABT OFFERS FOUR PRIMARY SERVICES

1- BIOMASS REDUCTION

- Feedstock processing options
- Orchard Pruning
- WUI Land Clearing

2 - MOBILE PRODUCTION

- Kelpie Wilson - Ring of Fire
- Paul Anderson - RoCC
- Bob Kaler - Air Burner

ABT SERVICES CONTINUED

3 - BIOCHAR BLENDING

- Onsite when applicable
- Offsite blending facilities;
 - Ord Bend, Glenn County
 - Chowchilla, Madera County

4 - DIVERSE SOIL AMENDMENTS

- Custom blends for diverse biochar quality with:
 - Frass / Worm Casting
 - Wood Compost
 - Mushroom Compost
 - Other Products

ABT PROJECTS

- Support Wilson Biochar Associates & USBI Ring of Fire workshops
- Support Wilson Biochar Associates promoting CCC concept
- Support BCMG demonstration gardens & workshops
- Developing the RoCC system with Paul Anderson
- Supporting Bob's Biomass and K-Organics Joint Venture
- Collaborating with Chorganics to supply and biochar blending trained field staff
- Hugh McLaughlin / UC AC FOX 5-X Development

KELPIE WILSON / WILSON BIOCHAR ASSOCIATES

Versatile “Ring of Fire”

Assemble At Biomass Reduction Site

Convection Burn / Minimum Smoke

KELPIE WILSON / WILSON BIOCHAR ASSOCIATES

CCC / Carbon Conservation Corps Concept

Every year, out-of-control wildfires are getting worse, requiring an ever-increasing workforce of trained firefighters, yet there are not enough young people being trained in firefighting and ecological restoration work. Meanwhile, many youth lack employment as they face a warming world. Some are experiencing a loss of hope.
